

PRODUCT BULLETIN**CAM2 Octane Booster**

Product # 813

CAM2 Octane Booster is a high performance octane booster and fuel treatment for carbureted, port injection, direct injection, and turbocharged engines. Designed to increase and stabilize the octane of fuel leading to increased performance and reduced emissions. Low-octane gasoline can lead to ping knocks, pre-ignition, and damaging detonation that increase wear rates while decreasing fuel efficiency. Adding one full bottle of CAM2 Octane Booster to 20 gals of gasoline cleans deposits from fuel injectors and replaces additives protecting valve seats extending engine life.

FEATURES/BENEFITS

- Reduces engine knocking and pinging
- Raises octane rating
- Restores power and fuel economy
- Cleans deposits from fuel injectors
- Reduces power loss due to knock-retard in computer controlled vehicles
- Replaces additives for protection of non-hardened valve seats
- Stabilizes fuel

APPLICATION/DIRECTIONS

- Add a full bottle to gas tank before fill-up
- Cleans fuel system as you drive
- Use on a regular basis to keep fuel system clean
- Each bottle treats up to 20 gallons

**Special handling, notices or warnings**

Use the same care and handling that you would use with petroleum products.
Do not store in direct sunlight.
