

**CAM 2 Aluminum Brightener** is a blend of acids and wetting agents designed to clean and brighten aluminum, stainless steel, copper, brass and fiberglass. The fast acting, super concentrated hydrofluoric acid containing cleaner easily removes road film and is safe for use in most standard cleaning equipment. CAM 2 Aluminum Brightener can also be used as an ideal Step 1, low pH acid presoak for aluminum trailer cleaning. Do NOT use on glass, anodized aluminum, or coated wheels. Spot check before use on polished aluminum.

## FEATURES/ BENEFITS

- Dissolves grease grime and road film from painted and metal surfaces
- Cleans and brightens a variety of surfaces
- Capable of being diluted for greater economy and controlled brightening rate
- Contains hydrofluoric and hydrochloric acid
- Contains wetting agents to help cling to surfaces

## APPLICATIONS

- Clean and brighten trailer bodies
- Can use on other aluminum surfaces
- Cleans stainless steel
- Use on Copper and Brass
- May be used on fiberglass

## CONCENTRATION and APPLICATION METHODS

### Two-Step Acid / Alkaline Exterior Wash

STEP 1: Apply Aluminum Brightener at 3-4 fl. oz/gal of water, through a low or high pressure sprayer. Allow to soak for 3 to 5 minutes, but not longer than 2 hours.

STEP 2: Apply a high pH detergent, such as Super Power Degreaser, at 6-8 fl. oz/gal of water through a low or high pressure sprayer. Allow to soak. high pressure rinse with clean water.

### Wheel Brightening

Spray application is recommended. Dilute to a ratio of 1:5 with water. Spray on and let soak for 2-5 minutes. Brush heavily soiled areas if necessary. Spray rinse with fresh water.

### Heavy-Duty Cleaning

Dilute to a ratio of 1:15 with water. Apply under a low pressure sprayer from bottom up. Brush heavily soiled areas if necessary. Allow to soak. Rinse with high pressure water from top to bottom.

## SPECIAL HANDLING, NOTICES OR WARNINGS

Use protective clothing, gloves and masks when handling

In case of eye contact, flush with water for at least 15 minutes

Keep away from heat and flame

Very Irritating fumes

Use in well ventilated area

HARMFUL OR FATAL IF SWALLOWED

Do not induce vomiting

Call physician immediately
